

#Issue-01

Task Name : Every User can see the same Shopping cart

Card Type : Bug

Severity: High

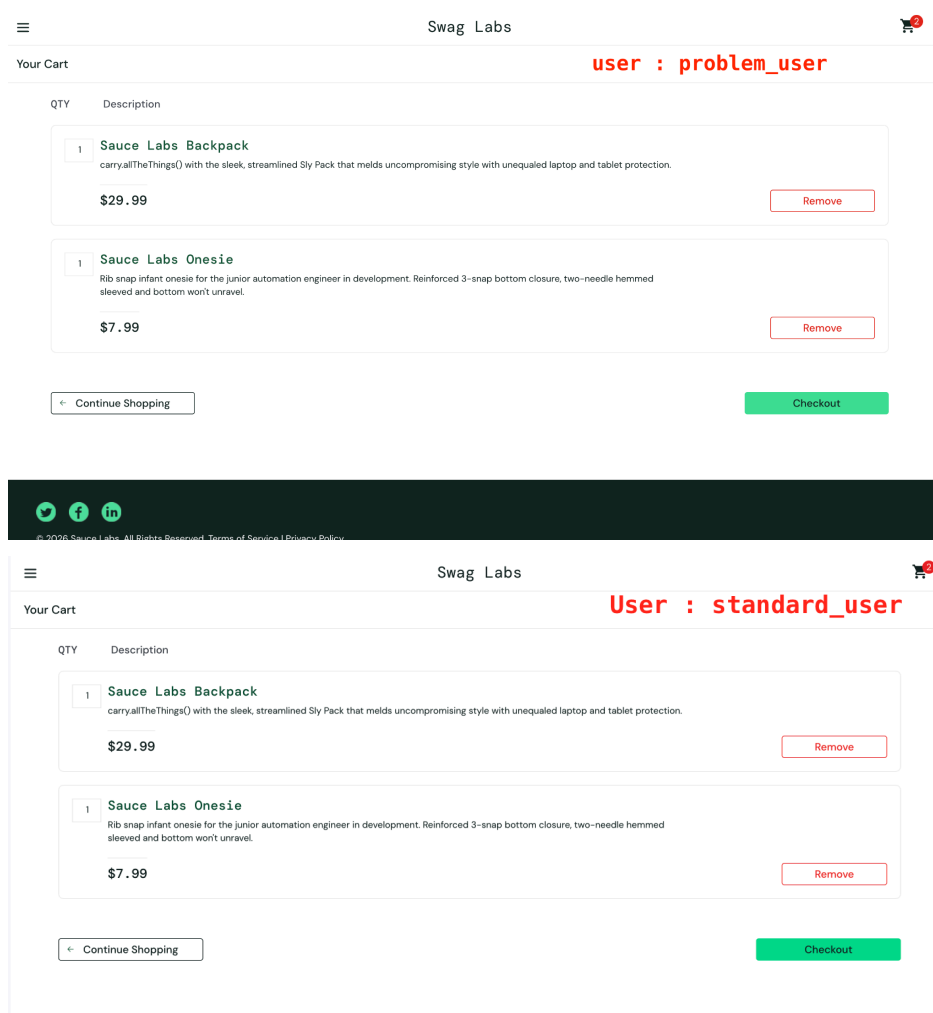

Priority: High

Environment : DEV

Step :

- 1.Login with the first user
- 2.Add item to cart
- 3.Logout and login with another user account

Actual result : Different user account can see the same item in the cart

Expected Result : Cart items should be separated by user

#Issue-02

Task Name : Shopping cart does not support changing item quantity

Card Type : Improvement

Severity: Low

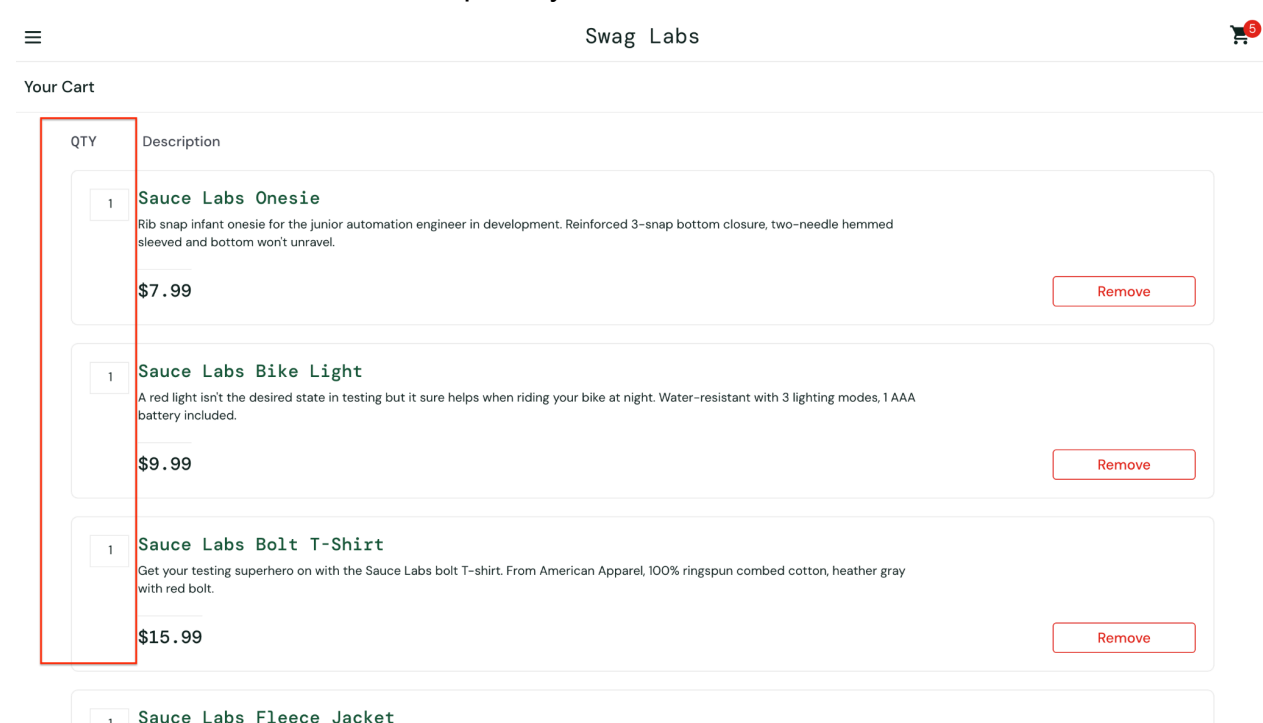

Priority: High

Environment : DEV

Step :

- 1.Login to <https://www.saucedemo.com/>
- 2.Add item to cart
- 3.Enter to Cart page

Actual result : There is no + or - button on the cart page at the QTY field so that ,here is no flow for users to edit item quantity

Expected Result : Users should be able to increase, decrease, or edit product quantity directly on the cart page

#Issue-03

Task Name : Shopping cart allows checkout with zero items

Card Type : Improvement

Severity: Medium

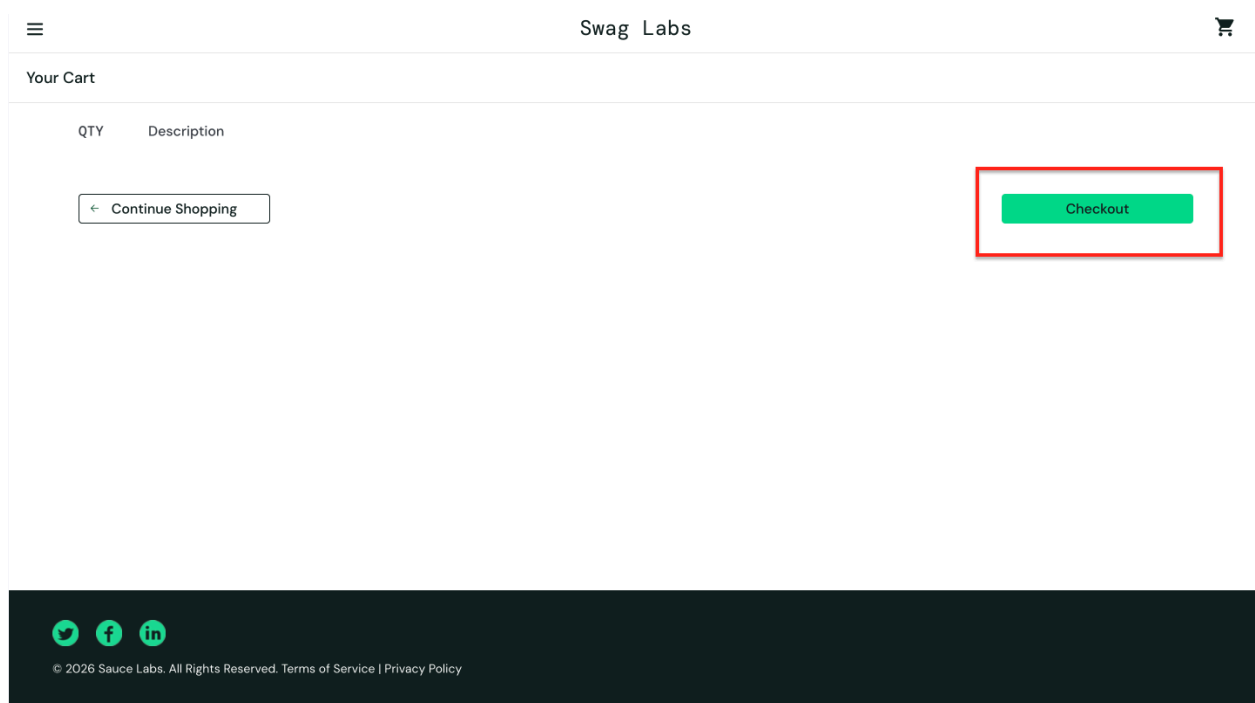

Priority: High

Environment : DEV

Step :

- 1.Login to <https://www.saucedemo.com/>
- 2.Do not add any item to cart
- 3.Enter to the Cart page
- 4.Click the "Checkout" button

Actual result : The system allows the user to click the "Checkout" button and navigates to the next step

Expected result : The "Checkout" button should be disabled and system should display an error message "Your cart is empty!"

#Issue-04

Task Name : Product images and layout are not responsive on mobile devices

Card Type : Improvement

Severity: Low

Priority: High

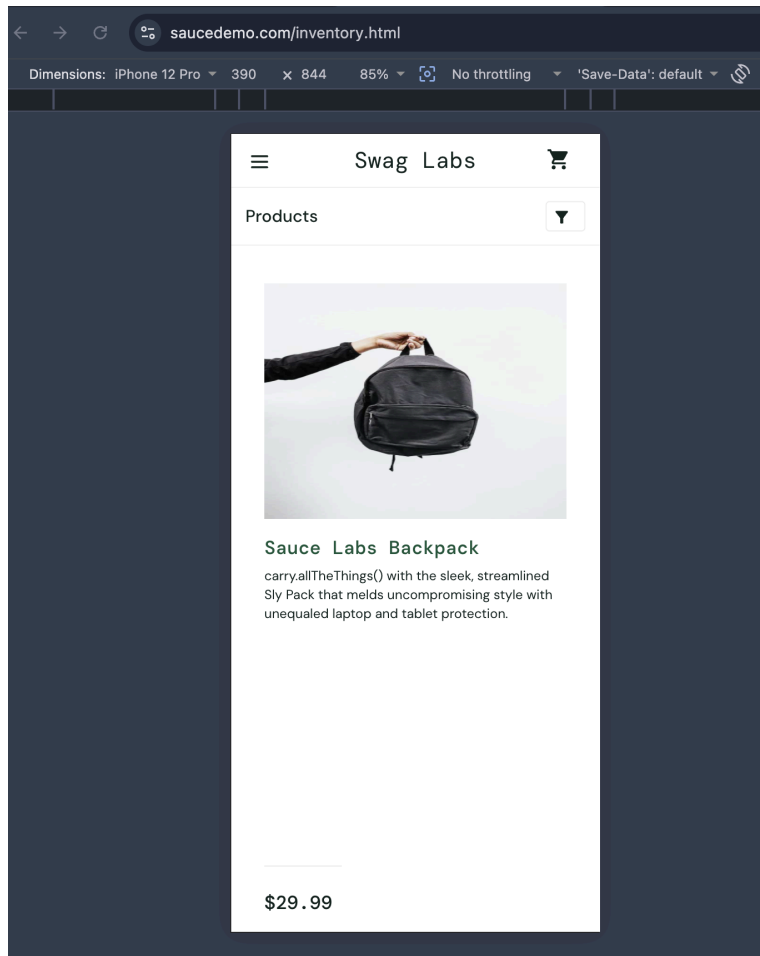

Environment : DEV

Step :

1.Login <https://www.saucedemo.com/>

2.Use the website in Mobile View

Actual result : The product images and layout do not scale properly on mobile screen

Expected result : The website should be responsive on every device.
